I Summary of Financial Results for FY3/23

II Business Performance Plan and Strategy for FY3/24

III ESG/SDGs

IV TOPICS

■ Actual Results for FY3/23;Comparison with FY3/22

- Gross operating profit decreased by 21.8 billion yen year-on-year to 43.4 billion yen, mainly due to a decrease in net interest income (4.7 billion yen) and a decrease in gains (losses) on bond transactions (17.3 billion yen).
- Net operating profit decreased by 28.9 billion yen year-on-year to 7.2 billion yen, mainly due to a change in the accounting item for gain on reversal of allowance for loan losses based on accounting standards*.
- Actual credit costs decreased 17.2 billion yen year-on-year to -1.1 billion yen (see the bottom-left table for breakdown).
- Net income (non-consolidated) increased 1.6 billion yen year-on-year to 9.5 billion yen, mainly due to the above factors.

*If the sum of the provisions of general allowance for loan losses, specific allowance for loan losses, and allowance for specific overseas claims is less than the sum of the reversals of the same, the amount of the provision of each allowance shall be left blank (indicate this outside the field) and the difference shall be recorded in "Gain on reversal of allowance for loan losses" under non-recurring income.

:Non-consolidated>	ce shall be recorded in Gain on rev			sillions of yen)

■ Actual Credit Costs and Non-Performing Loans Based on the Financial Reconstruction Law (Non-Consolidated)

- Actual credit costs for share house-related loans were -3.8 billion yen, mainly due to the lump-sum transfer of the 4th group of loans implemented in September 2022.
- Actual credit costs for loans other than share house-related loans were 2.6 billion yen, mainly due to an increase in the allowance for loan losses resulting from
 preventive allowance provisioning (see bottom-left on the previous page).
- As of March 31, 2023, the ratio of nonperforming claims to disclosed claims under the Financial Reconstruction Law was 10.4%, and the coverage ratio was approximately 82% based on collateral, guarantees, etc. and allowance for loan losses.

Ratio of disclosed amount to total credit (non-performing loan ratio)

10.4%

^{*}Includes studio apartment loans, single building apartment loans, and other secured loans.

Yield/Margins, Loans and Deposits Yield/Average Balance <Non-consolidated>

- Based on the Mid-Term Business Plan, the yield on loans and bills discounted for the entire region where we are promoting a switch of asset "quality" to middle-risk and middle-return, is 3.38% (total (E)).
- The delinquency rate for personal loans is 6.66% (A), partly since some customers with investment real estate loans have suspended repayment triggered by organized negotiations. However, excluding these special factors, the delinquency rate is 1.60% (F).
- In order to improve the delinquency rate of investment real estate loans, we are not only supporting repayments by changing conditions, but we are also providing feedback to customers on information of concerns such as damage and management conditions to real estate found in our own periodic surveys. Our support also continues to include potentially changing management companies.

(Billions of yen)

Loan category		March 2022			March 2023		
	Loan Category	Period-end balance	Yield	Delinquency rate	Period-end balance	Yield	Delinquency rate
Se	cured loans	1,693.1	3.09%	7.18%	1,542.6	3.05%	7.02%

Мс	onetary claims bought (D)	59.7	1.89%	_	131.5	2.08%	_
То	tal (E : A+B+C+D)	2,000.8	3.54%	6.26%	1,985.8	3.38%	5.60%

^{*}Delinquency rate = Loans past due for three months or more / loan balance. *Yield: Yield for customers (excluding guarantee fee and accrued interest), period-end balance basis.

^{*}Yield and delinquency rate of studio apartment loans, secured loans, consumer loans, and the total (A+B+C+D) are calculated based on original claims before securitization.

^{*}As the balance is aggregated by loan type, if borrowers of share house loans or customers participating in collective bargaining default on scheduled repayments, the delinquency rate of other types of loans will be affected.

^{*&}quot;Organizational negotiation partners, etc." refers to loans to borrowers who have submitted a request for suspension of repayments as a result of organizational negotiations (share house-related loans are excluded)

■ Earnings Forecast for FY3/24 <Non-consolidated & Consolidated>

(Dillions of you)

+0.5

 ± 0

- Gross operating profit is expected to increase by 10.5 billion yen to 54.0 billion yen, reflecting the absence of loss on disposal and loss on redemption of bonds, despite the decrease in net interest income.
- Core net operating profit is expected to decrease by 6.0 billion yen to 18.0 billion yen, mainly due to a decrease in net interest income.
- Actual credit costs are expected to be 6.5 billion yen for the full year, mainly due to 8.5 billion yen in preventive allowance provisioning.
- Net income is expected to be 8.5 billion yen on both a non-consolidated and consolidated basis.

[Normal amount]

Actual credit costs for loans without special factors (including share house-related loans) are expected to be -2.0 billion yen for the full year, taking into account a lower expected loss ratio.

[Preventive allowances]

We plan preventive allowances of 8.5 billion yen for the full year, taking into account additional provisions for suspension of repayments by some investment real estate loan customers triggered by organized negotiations and for claims for restructuring of loan terms and conditions from 3Q of the previous fiscal year for which normalization of recovery is unlikely.

Assumptions Underlying Earnings Forecasts for FY3/24< New Loan Assumptions >

- In the fiscal year ended March 2023, we implemented a total of 236.2 billion yen in all business areas we are promoting, up 72.4 billion yen year-on-year. Of this total, 36.4 billion yen was disbursed by the solution business, 47.6 billion yen was disbursed for investment real estate loans, and 72.1 billion yen was disbursed in structured finance, while 79.9 billion yen was acquired for monetary claims bought.
- In the fiscal year ending March 2024, we plan for a total of 210.0 billion yen in loans (160.0 billion yen in new loans and 50.0 billion yen acquired for monetary claims bought), as we expect solid growth in the retail and solutions business areas (see page 9) and will keep an eye on market conditions in market finance, which is expected to fall below the previous year's levels.

Forecast of New Loan Disbursements, etc. *

Trends in the amount of disbursement by business area, which was projected to be promoted in the mid-term business plan

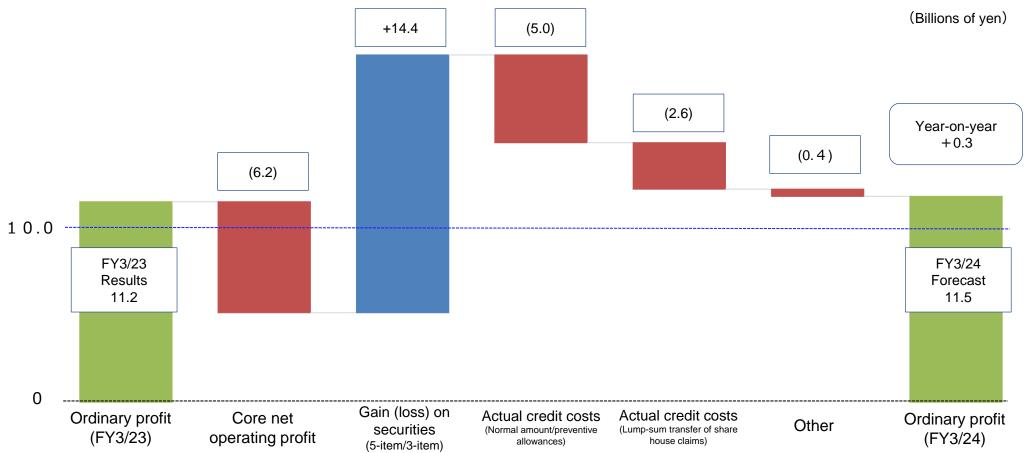

■ Assumptions Underlying Earnings Forecasts for FY3/24 < Reasons for Differences from the Previous Fiscal Year>

- Core gross operating profit is expected to decrease by 6.2 billion yen year-on-year, reflecting a decrease in net interest income due to a decrease in interest on loans and bills discounted.
- Gain on securities is expected to increase by 14.4 billion yen year-on-year, reflecting the absence of loss on disposal and loss on redemption of bonds.
- Expenses are expected to decrease by 200 million yen year-on-year as a result of continued efforts to reduce expenses through structural reforms, while also factoring in investments for growth.
- Actual credit costs are expected to increase by 7.6 billion yen year-on-year, taking into account normal amounts and preventive allowances (see page 4) as well as the absence of the gain on reversal of allowance for loan losses resulting from the lump-sum transfer of share house claims.

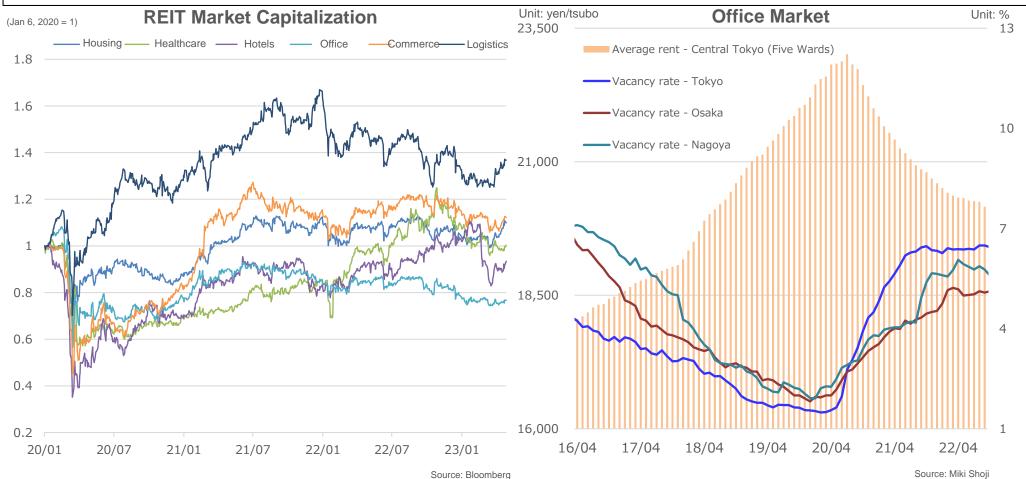

[Earnings Forecast for FY3/24 and Factors for Differences with FY3/23 Results]

■ The Real Estate Market's Status

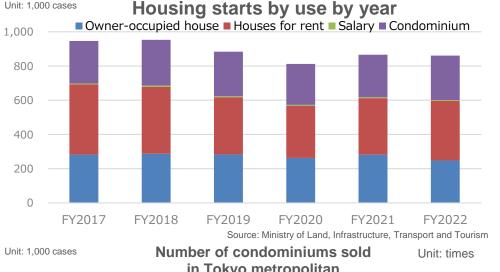

- REIT market capitalization remained steady despite the risk-off trend due to monetary tightening in the U.S. and Europe and the Bank of Japan's expansion of long-term interest rate volatility.
- The logistics area was particularly strong on the back of expanded use of e-commerce (EC) amid the COVID-19 pandemic. Commercial and residential areas also grew compared to prepandemic levels, with a view to the post-COVID world.
- Hotels are seeing a gradual inflow of funds as inbound tourism recovers, but there are also signs of weakness in the return of Chinese tourists, and levels are falling below pre-pandemic levels.
- For offices, rents continue to fall and vacancy rates remain high due to factors such as advancement in remote work, and have not yet reached pre-pandemic levels. Plus, a large supply of office space in central Tokyo is coming in 2023, and its impact must be closely monitored.
- For domestic real estate, there is relative attractiveness for investment due to low geopolitical risk and a yield gap maintained by the ongoing monetary easing policy, as well as a sense of affordability due to the weak yen. However, interest rate disparities require attention as interest rates in Europe and the U.S. rise.

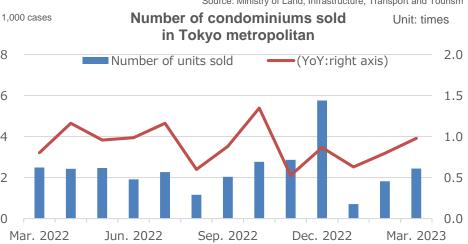

The Real Estate Market's Status

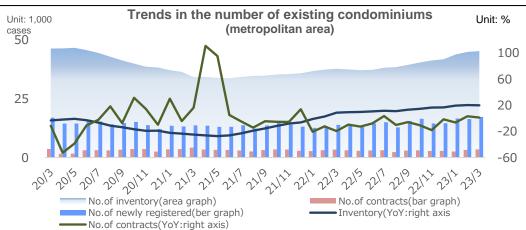

- In the housing market, housing starts overall were generally unchanged year-on-year. The number of new owner-occupied housing starts was sluggish, falling below the
 previous year's level in all months due to soaring housing prices and delivery delays of housing equipment, while the number of new rental housing starts exceeded the previous
 year's levels in all months. In the condominium market in the Tokyo metropolitan area, the number of contracts for existing condominiums, the number of condominiums sold in
 the Tokyo metropolitan area, and the first month contract rate were all stagnant, as prices remained in a high range.
- While the current oversupply of imported lumber and other materials has caused the price of laminated lumber for housing to decline, global inflation and a weak yen have caused material prices in general to continue to rise, trends we will continue to monitor closely.
- Our company will carefully assess these market trends and the risks associated with individual projects and promote investment real estate loans, housing loans, and structured finance.

Outlook for New Business Gross Profit: Four Autonomous Profit Centers

- Reorganized the four business areas in the second phase of our Mid-Term Business Plan into an organization in which each profit center takes the
 initiative in promoting its own business.
- Core gross operating profit from the new portfolio areas for promotion is expected to increase by 2.1 billion yen year-on-year to 9.8 billion yen.
- In particular, the retail and solutions business is expected to increase 1.5 billion yen year-on-year to 3.9 billion yen (66% growth).
- Core gross operating income from old portfolio areas is expected to decrease by 8.2 billion yen year-on-year to 44.2 billion yen, mainly due to
 decreasing balances.

Four Autonomous Profit Centers

Community Bank

- To establish account-based sales in the personal solution business while promoting human resource development to become a lifelong partner building highquality, long-term relationships and keeping close connections with customers. In the corporate solution business, the Group will continue to focus on business matching to help local companies solve their management issues and revitalize the local community by leveraging partnerships with the Suruga Bank Group, partner companies, experts, and other organizations.
- For each area, we will verify profitability commensurate with regional characteristics and fulfill the profit center role.

Personal Solutions

■ Hundred Customer Program

We aim to increase our market share among customers, which is the first pillar of our business, and to build long-term relationships with customers in order to increase customer loyalty and become a lifelong partner maintaining close connections with customers. To this end, FAs and FACs in each area will be assigned to 100 customers under the "Hundred Customer Program" to deepen their understanding of each customer's "AID" and make optimal proposals to resolve them. Understanding "AID"

FAs/FACs

·Communication sheets

 Utilizing CRM Eliminating "AID", making optimal proposals

Proposal process

Corporate Solutions

Providing solutions beyond overall management

Financial

- Business financing with appropriate assessment
- Utilizing public institutional loans such as SDGs quarantees
- Improving cash flow through factoring and leasing, etc.

Management support

- Internet banking and other fund management services
- Cashless payment support
- Streamlining settlement operations with business cards, etc.

Continuation management

- Business succession, M&A
- Matching for human resources support and development
- Support for non-Japanese customers, etc.

■ New Solutions via Partner Companies

Support for **SDG** initiatives Mitsui Sumitomo Insurance Company, Limited and MS&AD InterRisk Research & Consulting, Inc. have started offering the "Suruga SDGs Initiatives Support Service" for corporate and sole proprietor customers.

Health support

In December 2022, we began referrals of health promotionrelated services provided by Meiji Yasuda Life Insurance Company to our business partners.

Environment

In March 2023, we began referrals for our corporate and sole proprietor customers to e-dash Co., Ltd., which provides a CO2 emissions visualization and reduction service platform.

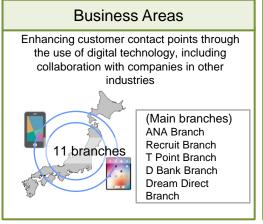

Direct Bank

- We will continue to strengthen expansion of web-based transactions, mainly through smart accounts, in order to expand the customer base. We provide accounts usable for a wide range of transactions through returning value to customers and cross-selling proposals for bank transfer/balance charging/other transactions.
- We will continue to strengthen our product design and promotion strategy to match various categories such as use of funds (auto/education/dental) and FI target segments (non-Japanese).

Direct Bank Strategy

Customers who have trouble accessing finance or want to improve their wellbeing Non-Japanese residents Flderly Young customers Well-being-conscious customers etc.

Unique Suruga Value Provided

Product lineup

- Smart accounts
- musu-bi
- Accounts exclusively for non-Japanese customers without permanent residency
- Auto loans for non-Japanese customers, etc.
 Loans by purpose
- · Auto loans, educational loans, bridal loans
- · Dental loans, animal healthcare loans
- Road bike purchase loans, golfer's loans Musical instrument/audio equipment purchase loans, etc.

Our strengths CRM specialized for retail Diverse communication methods Marketing Utilizing digital solutions

Number of Direct Bank Accounts Opened Over Time

*Cumulative number of main Internet branch accounts within the direct bank opened since April 2022

Smart account key points

- Can complete application on a cellphone/non-face-to-face in Japan, where more than 90% of cellphones are now smartphones
- Addressing demand for payment-only accounts as cashless payments become increasingly popular
- ✓ Providing Suruga-unique return benefits for QR payment balance charging, etc.
- ✓ Streamlining and tightening identity verification operations by utilizing eKYC
- Transaction statement confirmation and other banking transactions provided via mobile app

■ Greater Tokyo/Wide-Area Bank: Housing Loans

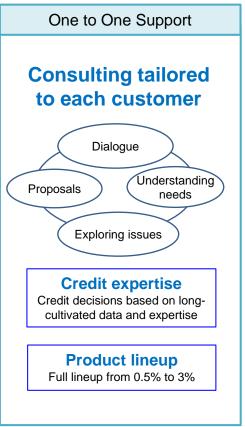

- Due in part to growing needs for non-face-to-face interaction, the number of web-based housing loan applications increased by 130% year-on-year.
- By determining the characteristics of each area and providing products that meet the needs of key targets (high-income earners, business owners, non-Japanese residents, those changing residences, and those living in two locations), we aim to build long-term relationships originating in homes and to provide personalized financial solutions.

Housing Loan Strategy

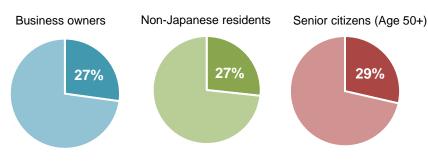

Targeting according to area characteristics High-income Change of residence earners Cross-regional **Business owners** residents Non-Japanese etc. residents **Business Areas** Nationwide business through a network of locations across five major metropolitan areas and direct services Direct housing loan center 9 locations

Targeting

Share of Housing Loan by Customer Segment

*Segment selection period: April 1, 2022 to March 31, 2023

Number of Web Applications

■ Greater Tokyo/Wide-Area Bank: Investment Real Estate Loans

- In investment real estate loans, we expect to execute 60 billion yen in new loans in organic and inorganic areas in the fiscal year ending March 2024.
- We will continue to enhance our presence in the real estate market through product development and revisions and sales activities that meet the
 needs of our customers and the market.

Investment Real Estate Loan Strategy

Organic areas

- · Polished, professional sales structure with a dedicated team
- Flexible product development capabilities tailored to diverse needs and property locations
- Tailor-made support cultivated in the housing loan business

Inorganic areas

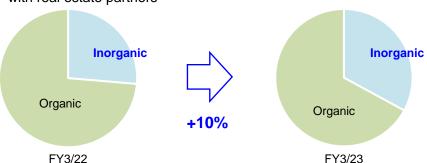

- · Alliances through deepening transactions with partner companies
- Expanding transaction volume through stronger relationships with partner companies
- Expanding scope by developing new partner companies

Unique value proposition

- Providing optimal services based on a customer-oriented approach
- Proprietary screening system combining factors such as asset background, property value, etc.
- · Upgrading talent capabilities to improve solution skills

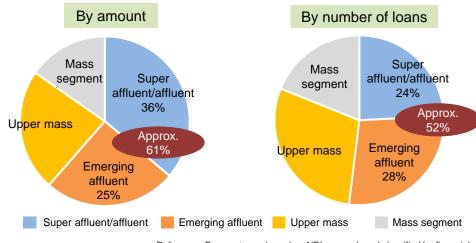

Loan Results by Promotion Structure

Ratio of inorganic loans increased due to deepening relationships with real estate partners

Share of Investment Real Estate Loans by Customer Segment (By Amount Disbursed)

Reference: Segments are based on NRI research and classified by financial assets held at the time of the research

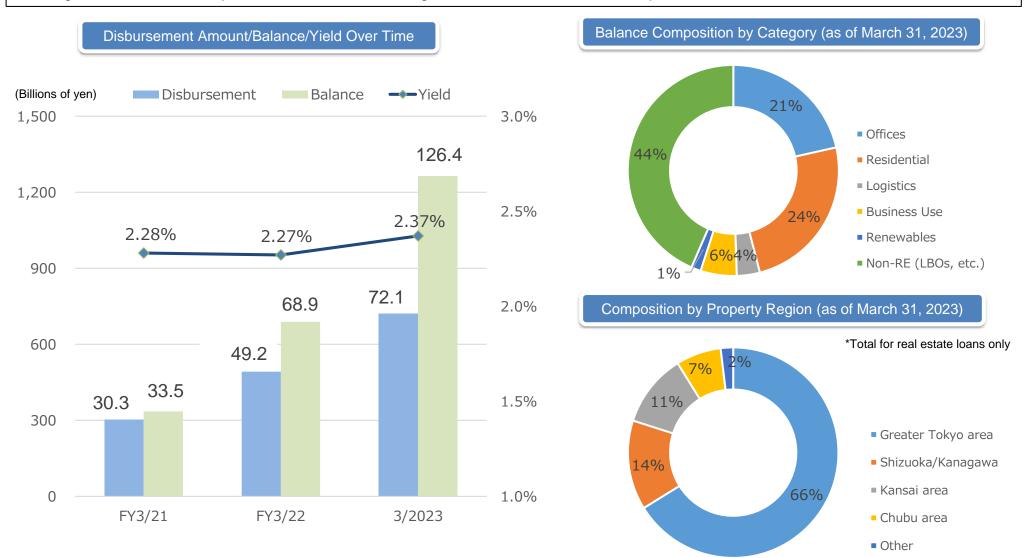

Number of Web Applications

■ Market Finance: Structured Finance

- In structured finance, we expect to execute 55 billion yen in new disbursements in the fiscal year ending March 2024.
- We will continue to carefully select high quality claims with controlled risk, paying attention to changes in the market environment, while being conscious of overall portfolio diversification through diversification of asset class, position, location, etc.

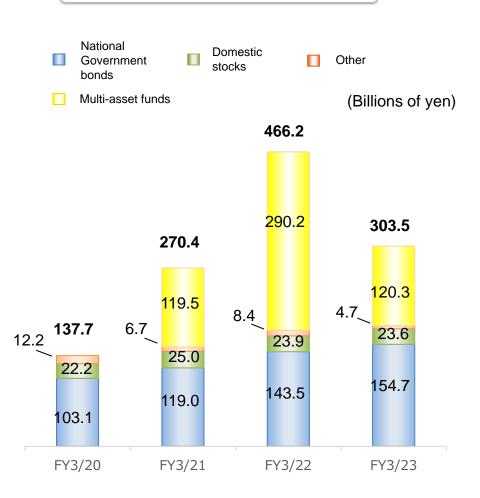

Market Finance: Securities Management

- In order to restructure our securities portfolio, a portion of multi-asset funds and bonds, which had been carrying valuation losses, were sold in the previous fiscal year to reduce the balance. As a result, the valuation loss, which was 20 billion yen at Dec. 31, 2022, was reduced to 1.2 billion yen at Mar. 31, 2023. In addition, we are maintaining a risk-controlled multi-asset fund portfolio.
- Aiming to build a more stable profit structure, we intend to progressively build a portfolio centered on yen bonds, taking into account the market environment.

Status of Single Building Apartment Loans

- Due to strict self-assessment based on the changes in the self-assessment standards¹ in September 2018, non-delinquent loans of approximately 500 billion yen were classified as loans requiring special attention.
- Of loans requiring special attention, as of the end of March 2023, most loans were not delinquent.
- In fiscal 2022, we made regular examination of about 8,500 of single building income loan properties, confirming an 87.6% occupancy rate. We will provide our unique support for property management, such as reporting to customers on the property management status, etc. identified in the survey, and referrals to specialists, with the aim of maintaining or increasing the debtor's ranking in the borrower category.

Loan balance of single building apartment loans by classification of borrowers and delinquency status (as of March 31, 2023)

(Billions of yen)

Borrower classification	Credit claims such as loans *2	Balance of single building apartment loans	Not delinquent
Normal clients	1,250.5	249.1	249.1
Clients requiring special attention	608.8	512.4	509.0
Clients requiring corrective action	65.4	55.4	53.7
Clients at high risk of bankruptcy	47.2	32.5	30.2
Virtual bankruptcy clients/bankruptcy	118.8	108.6	4.3
Total	2,090.7	958.2	846.5

^{*1} Loans are classified as requiring special attention if tax return documents are not received or the loan property has negative cash flow even if not delinquent.

*2 Credit claims such as loans: Loans and bills discounted, customers' liabilities for acceptances and guarantees, foreign exchanges, securities lent, suspense payments equivalent to loans and bills discounted, accrued interest on loans and bills discounted

Occupancy rate of single building apartments (periodic survey)

Occupancy rate in fiscal 2022: 87.6%

(Survey results for occupancy rate in fiscal 2021: 87.4%)

Survey content:

- Covers customer properties with a single building income loan balance of 50 million yen or more (Approx. 8,500 properties, 90% of total outstanding balance)
- Fundamental procedure is for our staff to visit the subject property to check not only occupancy status, but also for any property damages and management status
- For any discovery of property damage, abnormality in property management, etc., information is shared with customers and we consult with them on how to respond

IV TOPICS

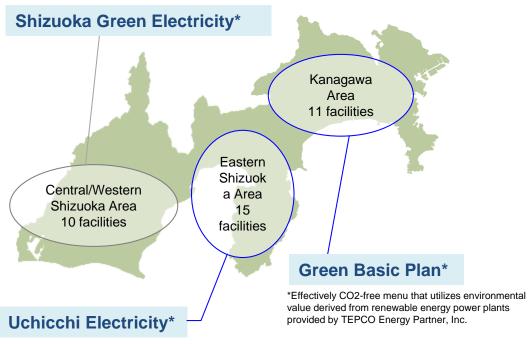

• Through the introduction of CO2-free electricity and the promotion of eco-offices, we aim to realize a decarbonized society.

Contribution to environmental preservation - Suruga Group's Materiality

■ Introduction of CO2-free electricity

We have newly introduced electricity with zero CO2 emissions for use in branches and other locations within the Tokyo Electric service area. As of May 2023, we have introduced three types of CO2-free electricity and expect to reduce annual CO2 emissions by about 2,500 tons.

*Electricity with zero CO2 emissions produced in Shizuoka Prefecture and provided by Chubu Electric Power Miraiz Co., Inc.

*Effectively CO2-free menu that utilizes environmental value derived from hydroelectric power plants in Shizuoka Prefecture provided by TEPCO Energy Partner, Inc.

■ Conversion of Shimizu Branch into an eco-office

In April 2023, the Shimizu Branch reopened as an eco-office. We also used carbon offsets with its building materials, which in conjunction with environmentally friendly facilities such as the use of eco-glass and LED lighting have achieved the CASBEE Shizuoka A rank.

We will continue to install environmentally friendly equipment during store reopenings to contribute to environmental preservation.

* CASBEE (Comprehensive Assessment System for Built Environment Efficiency): A method to evaluate the environmental performance of buildings and the various environmental impacts generated by construction, maintenance, management, etc. from a multifaceted and objective perspective. CASBEE Shizuoka takes into account the regional characteristics of Shizuoka Prefecture and related systems. In this system, the A rank is the second highest rating following the S rank.

Exterior: Eco-glass

Interior: LED lighting and ceiling fans

■ SDGs/ESG initiatives: Social

- In Phase 2 of the Mid-Term Business Plan, we are organizing management issues from the perspective of human capital and engaging in measures with three focuses contributing to sustainable corporate value enhancement.
- We are taking various measures aimed at improving employee engagement, empowering employees over 55 years old, and recruiting human resources with diverse values.

Creating an environment where employees can thrive and grow - Suruga Group's Materiality

Human capital

Basic Policies in Phase 2 of the Mid-Term Business Plan (Vectors with Employees)

In Phase 2 of our Mid-Term Business Plan, we will continue to regard our employees as <u>valued assets</u> and invest more than ever in human capital.

Three Focuses of Measures for Sustainable Corporate Value Enhancement

Changes in roles required of employees

- Raising motivation/awareness of all employees and expanding their circle of activity
- Diversifying work styles and options
- · Support options for reskilling
- · Visualizing career paths

Expanding specialized business areas

- Career support encouraging talent development in specialized fields
- Remuneration in consideration of the talent market

Taking on the challenge of differentiation

- Providing a forum to expand scope of thought/discussion
- · Rewards for enhancing corporate value
- · Rewards for taking on challenges

Introducing a share remuneration plan for executives

- Introduced to increase employee engagement, share interests with shareholders, and raise awareness of the need to contribute to increasing corporate value from a long-term perspective
- Already introduced for directors/executive officers and expanding the scope to include senior management, consisting of heads of sales offices and divisions, etc.

Introducing a Meister System to support the activities of veteran employees

- Introduced with the aim of strategically allocating human resources and motivating veteran employees over 55 years old
- Employees with sufficient skills and experience in their respective fields are recognized as Meisters and paid according to the salary scale applicable for employees 54 or younger

Introducing rehiring program for preferential treatment of former employees in mid-career hiring

- Preferential treatment to former employees who left due to marriage/childcare/nursing care/etc. in mid-career hiring selection process
- · Aiming to hire talent with diverse values

Preferential treatment encouraging new graduate candidates declining our offer to change jobs

- Introduced with the aim of expanding the recruitment of human resources with knowledge and experience in other industries and companies, as well as new ideas not found among our employees
- Preferential treatment for new graduates who declined our job offer if they wish to be considered for mid-career recruitment within 3 years of graduation. Candidates are fast-tracked to the final interview

■ SDGs/ESG initiatives: Social

 Through the Partnership Agreement on Bicycle Promotion with municipalities and companies, we will contribute to building a foundation for further regional cooperation.

Building Sustainable Local Economies and Societies

- The Suruga Group's Materiality

■ Suruga Bank Cycling Project

The Suruga Bank Cycling Project aims to create new tourism value by promoting cycle tourism in coordination with local tourism resources, and supports the local service and tourism industries by providing detailed tourism information that takes advantage of the mobility of bicycles.

Collaborating with municipalities/companies

In the second half of fiscal 2022, we signed the Partnership Agreements on Bicycle Promotion with three new municipalities/companies.

Signed agreement with Tokyu Hotels Co., Ltd.

Working with Tokyu Hotels, which owns several facilities highly-suited to cycling, to increase the number of people interacting with the city through cycling. A cycling event to journey around Izu Peninsula and city promotions to communicate the region's attractions are planned. Tokyu Hotels will also continue to enhance services for cyclists at the hotels it manages.

City Promotion: Tokyu Hotel bicycle travel

Agreement signed with Minamiizu Town, Shizuoka Prefecture

We held events connecting the KANO BASE Cycle Station* and Minamiizu Town to propose new cycling options to people. In addition, we are promoting the town through various themed cycling courses, with a focus on the Geopark and other unexplored tourist spots, using social media for messaging.

*An activity base for cycling promotion in the Izu Peninsula, established by Suruga Bank in Izu City in September 2021.

Cycling event: JU-ZA Minamiizu RIDE

City Promotion: Minamiizu®Puttering

Signed agreement with Fujieda City, Shizuoka Prefecture

We will work on three agreed projects in cooperation with Fujieda City, which promotes the use of bicycles as secondary transportation and a share cycle service.

- (1) Conduct city promotions to disseminate information on Fujieda City's tourism resources
- (2) Organize cycling events to promote Fujieda City's cycling environment
- (3) Formulate a model cycling course for Fujieda City

Cycling Event: Tour de SURUGA Fujieda Stage, 100 km

City Promotion: Edapota

■ SDGs/ESG initiatives: Governance

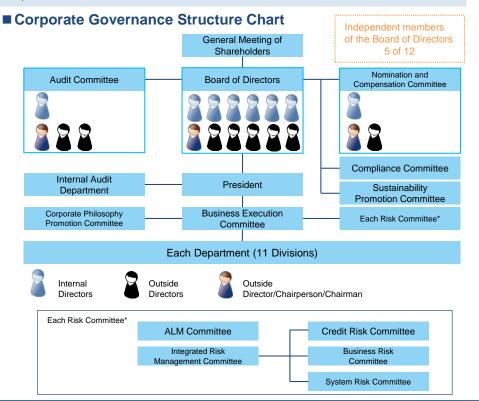

- In fiscal 2023, we will add two new outside directors (including one independent outside director) to our governance structure, aiming for a high level of transparency and further improvement of governance.
- The Sustainability Promotion Committee was established with the aim of realizing sustainable, long-term value creation through the promotion of the retail and solutions businesses.

Establishment of a Solid Governance Foundation - The Suruga Group's Materiality

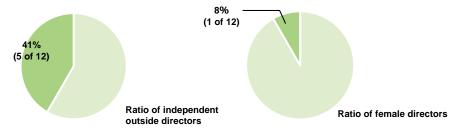

■ Basic Philosophy of Corporate Governance

In order to realize our corporate philosophy, "I'm glad you're here... I'm glad we met...," we have established and put into practice a Compliance Charter as a standard of conduct for our officers and employees. By putting this into practice, we strive to achieve thorough compliance and customer-oriented business operations, foster a sound organizational climate and corporate culture, and enhance our corporate value.

■ Composition of Directors

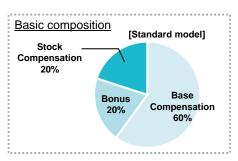

■ Compensation for directors

Introduction of post-issuance stock compensation system

In 2020, we introduced a post-issuance stock compensation plan for directors (excluding outside directors and Audit Committee members) to clarify the connection between their compensation and the Company's performance and stock value, and to raise their awareness of the need to contribute to improving the company's performance and increasing its corporate value over the medium to long term.

From the viewpoint of preventing excessive risk-taking and appropriately supervising directors, compensation for outside directors and Audit Committee members is not linked to business performance, and consists only of base compensation.

[Forfeiture of stock compensation (Clawback and Malus clauses)]

We have established clauses (Clawback and Malus clauses) in our stock issuance rules that require forfeiture of all or part of the stock compensation in order to curb excessive risk-taking, ensure sound management, and prevent serious misconduct such as accounting fraud or largescale correction of past fiscal years' financial results.

Ⅳ TOPICS

Capital and Business Alliance with Credit Saison Co., Ltd.

Mutual Vision

Through full use of the retail expertise of both companies and seamless collaboration, creating a "Neo Finance Solution Company" transcending conventional financial institution archetypes and starting from resolution of troubles and other "AID."

Overview of the Capital and Business Alliance

1. Capital Alliance Details

- (1) Suruga Bank acquires Credit Saison shares: 8,224,700 shares of common stock (5.0% of voting rights) for approximately 15.5 billion yen
- (2) Credit Saison acquires Suruga Bank shares: 35,089,000 shares of common stock (15.72% of voting rights) for approximately 17.1 billion yen In both *(1) and (2), each party allots common shares to the counterparty by way of treasury stock disposal via third-party allotment, and the counterparty acquires such shares.

2. Business Alliance Details

Implementing the following:

- (1) Establishment of Saison Branch and acquisition of bank agency business by Credit Saison; (2) Joint commercialization of Saison Platinum Business Card; (3) Collaboration in housing loan business;
- (4) Joint development of real estate finance

The two companies will also consider collaboration in areas other than those mentioned above.

3. Mutual Director Dispatch

In order to further deepen the cooperation between the two companies and strengthen their respective governance systems, each company may nominate one candidate for outside director of the other company.

Requirements for Agreement Effectiveness:

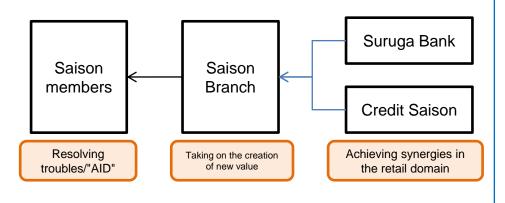

- (1) A proposal to elect the director candidate recommended by the counterparty as a director is approved at the ordinary general meetings of shareholders of both companies to be held in June 2023
- (2) Credit Saison obtains approval as a major bank shareholder in accordance with Article 52-9(1) of the Banking Act
- (3) The Securities Registration Statement based on the Financial Instruments and Exchange Act for the disposal of common stock of both companies becomes effective, and the necessary permissions and approvals etc. from the relevant authorities are obtained for carrying out the disposal of treasury stock

Current Areas of Business Partnership

Suruga Bank establishes the Saison Branch and Credit Saison acquires banking agency business

- Suruga Bank establishes an Internet-only branch (tentative name: Saison Branch) for Credit Saison's Saison members, offering products and services unique to the branch jointly developed by the two companies. (Specific details to be discussed by both companies)
- An initiative to provide branch accounts for Saison members, subject to Credit Saison's permission to engage in the banking agency business with Suruga Bank as the affiliated bank.
- An initiative in which Credit Saison guarantees loans provided at the Saison Branch.

Joint commercialization of the Saison Platinum American Express® Card

 Providing the Saison Platinum Business American Express® Card issued by Credit Saison, allowing Suruga Bank's affluent customers and SME owners to enjoy the special benefits of various supplementary privileges in addition to the business benefits offered to them.

* "American Express" is a registered trademark of American Express. Credit Saison Co., Ltd. uses this under license from American Express.

Collaboration in the housing loan business

 Suruga Bank sells new Credit Saison-guaranteed housing loans, expanding both Suruga Bank's housing loan business and Credit Saison's credit guarantee business.

Joint development of the real estate finance business

 The two companies will combine their expertise and resources in real estate finance to enhance their presence in the market.

■ Corporate Philosophy

"I'm glad you're here...
I'm glad we met..."
This perception is our goal.

No matter how much the times change or time passes, we are committed to providing service from the customer's perspective, staying closely in tune with their everyday lives providing value, and helping our customers lead more prosperous lives.

<Our Ambition>

We aim to serve as a bank that always thinks of customers first in any situation.

By genuinely listening to our customers and providing added value that only Suruga Bank can deliver, we aim to be the kind of bank that makes customers feel "I'm glad you're here...I'm glad we met."

To provide customers with truly satisfying service, it is vital for staff members who provide these services to find their work meaningful. Thus, we also strive to be a company that makes not customers, but also staff members feel "I'm glad you're here... I'm glad we met."

N

Corporate Philosophy

We want to be a company that makes customers feel, "I'm glad you're here... I'm glad we met."

Customer satisfaction

Shareholder value

Employee satisfaction

Contribution to society

Vision

- •To realize our corporate philosophy, we will create a "new Suruga Bank" that delivers customer satisfaction and ensures that staff feel their work is meaningful. We will achieve this through a commitment to carrying out customer-oriented business, initiatives in our core business of retail banking, and by creating unique value in ways that are distinct to our bank.
- ·We will also establish measures for thorough compliance and controlling appropriate risk/return, and develop a "new sustainable business model" as a public financial institution that benefits the public.

I. Evolving the Retail and Solution Businesses

We will create sources of differentiation founded in resolving AID (Worries, inconveniences, dissatisfactions, etc) for our customers, leading them to say "we are happy to have you" or "we are happy to meet you."

II. Building a Sustainable Revenue Structure

We will counteract the decline in the top line due to the collection of existing loans and pivot to a sustainable revenue structure with three measures: growth of new business revenue through four autonomous profit centers, cost structure reform, and minimizing and stabilizing actual credit costs through higher credit quality

III. Risk-Taking and Risk Diversification

In accordance with the Risk Appetite Framework (RAF), we will repeat a cycle of active risk-taking and verification in selected areas, diversifying away from our traditional risk structure concentrated in specific real estate areas²

²Single building income properties (relatively high share of older properties and properties located in regional areas) executed prior to the full-scale rollout of Phase 1

Phase 2 Strategic Management

Initiative Policies in the "Re:Start 2025 Phase 2" Mid-Term Business Plan

Phase 2 Strategic Management

- I. Evolving the Retail and Solution Businesses

Initiatives for SDGs

- · Taking into account the social responsibilities requested by stakeholders and diversifying social and environmental issues, we have identified priority
- issues that must be addressed by the Group in light of its business opportunities and risks, and also formulated important issues (materiality) to realize a sustainable society and maintain and improve its corporate value.

Identification of materiality issues

Selection and determination of materiality issues

We identified materiality issues by referring to the four pillars of "stakeholder capitalism metric/ measurement standards" proposed by the World Economic Forum in 2020.

We analyzed and evaluated elemental information on both what our Group values and what stakeholders do, and formulated "materiality" issues that are important to both sides.

Principles of governance

What Suruga Bank Group values

Corporate Philosophy Compliance Charter Mid-term Business Plan "Re:Start2025" History

People

Prosperity

Planet

What stakeholders value and expect from the **Suruga Bank Group**

Employees Customers Regional **Shareholders** community Regulatory Global authorities environment

Selection and determination of materiality issues

Our Group's materiality are the following four issues. Each materiality issue, which is not independent but organically linked with the other issues, is an integral part of fulfilling our responsibilities to all stakeholders.

Establish a solid foundation for governance

Create an environment where employees can play an active role and grow

Building sustainable local economies and societies

Contribute to environmental conservation

Relevant SDGs

Special efforts for investment real estate loans

- In order to finally solve the share house-related loan problem, which is one of the priority issues in the first phase of the Mid-term Business Plan, we are continuing to respond to each customer's individual circumstances, focusing on unprecedented initiatives such as "the partial cut in principal" and "the comprehensive transfer of loans".
- The fourth and final comprehensive transfer of shared housing loans were transferred in September 2022, thus completing all comprehensive transfer of loans to customers who filed for mediation as a group at the end of August 2021.
- For customers who are using investment real estate loans, etc., other than share house loans, in addition to a partial cut in principal, the policy is to take a serious response according to each customer's individual circumstances.

Response to customers since FY2018

For details, please refer to the next page, "Status of Investment Real Estate Loans and Organizational Negotiation Partners"

- ✓ We established the "Office to Support Customer Owners of Share Houses and Others" whereby we have carefully responded based on each customer's circumstances, including lowering the loan interest rate and deferred repayment of the principal amount for a certain period. At the same time, we have considered taking all possible options as a financial institution, including exemption for repayment of part of the principal amount of the loan using ADR.
- ✓ We adopt the DC method for calculation of allowance for possible losses for share house-related loans. If the loan is delinquent for more than a month, we provide 100% allowance for the unsecured amount.

Exemption for repayment of part of the principal amount of the loan <Repayment support scheme>

Details: "Exemption for repayment of part of the principal amount of loans for share houses and other investment real estate loans" issued on May 15, 2019

Applicable: Share house loans and other investment real estate loans

Content: If the borrower has a rental loss on the property, including loan repayment, when they individually requested exemption for repayment of part of the principal amount of the loan, from the perspective of fair share of loss and in view of the difficulty in their loan repayment, we calculate the loan repayment amount correspondent to the settlement amount we are responsible for, which will be offset with their repayment amount upon mutual consent.

Status: The acceptance of applications was closed on November 30, 2019. By the end of February 2021, we completed sending to the borrowers who applied for the exemption a primary calculation notice of the exemption amount. For borrowers who request the next step, we are proceeding with a civil conciliation or authorized ADR procedure.

Comprehensive transfer of loans <subrogation scheme>

Ref.: "Announcement Regarding Transfer of Share House-related Loan Receivables" issued on Mar 25, 2020 and Mar 1, 2021, Mar 25 2022, Sep 26 2022

Target: share house loans

Content: Before we executed share house loans, we did not sufficiently analyze share house-specific risks associated with general investment real estate loans, including inappropriate action such as ignoring impracticability of business plans. Given that the conciliation committee of the court recognized that we have an obligation to compensate for damages, based on typical unlawful behaviors, we agreed to carry the obligation to pay the petitioners the settlement amount based on the conciliation recommendation. After offsetting our claims with our obligation to pay the settlement amount, we will make a comprehensive transfer of share house loans.

Status: The first transfer was carried out in March 2020. (257 debtors, 44.0 billion yen in claims)

The second transfer was carried out in March 2021. (285 debtors, 44.2 billion yen in claims)

The third transfer was carried out in March 2022. (404 debtors, 60.5 billion yen in claims)

The fourth transfer was carried out September 2022. (105 debtors, 16.8 billion yen in claims)

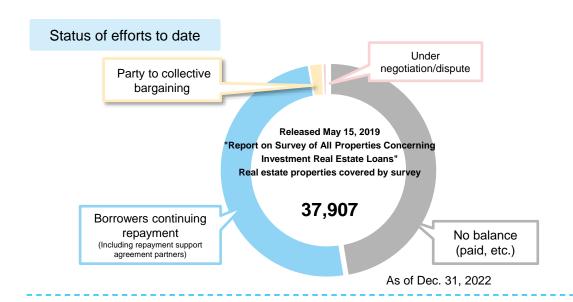

Total (1,051 debtors, 165.5 billion yen in claims)

The fourth comprehensive transfer of loans was completed on September 26, 2022.

Reference Material 6

■ Status of Investment Real Estate Loans and Organizational Negotiation Partners

After approximately four years of repayment support and consultation efforts, more than 40% of the 37,907 properties surveyed have a loan balance of zero, and more than 50% are maintaining loan repayment.

However, approximately 3% of the loans other than those are under negotiation or pending (i.e., those for which organizational negotiations are underway or repayment support agreements have not been reached), and we will continue to take appropriate measures to resolve these issues.

Basic approach to future action

- From the viewpoint of striking early settlements, we are actively cooperating in clarifying loan circumstances in certain types of cases where the bank is likely to be found liable in tort in a lawsuit.
- In addition, there have been several cases in which the sale of investment real estate has led to full repayment, and we are also moving forward with **proposals to consider voluntary sales of real estate**.
- With regard to investment real estate loan cases, each case has its own very individual qualities, and we believe it is necessary to consider the unique circumstances of each case individually when determining whether and to what degree there is an obligation to compensate for damages.
